PROFILE SUMMARY

Front-End Web Developer with strong expertise in building responsive, high-performance Single Page Applications using JavaScript, TypeScript, and React. Experienced in modern web development workflows, state management, and API integration. Passionate about clean code, UI/UX design, and delivering seamless user experiences.

EDUCATION

Malikussaleh University – Lhokseumawe, Aceh **2019-2026**
Informatics Engineering (Non-Degree Program). GPA: 3.52 / 4.00

SMK Bina Mandiri – Bekasi, Jawa Barat **Jun 2019**
Computer and Network Engineering

EXPERIENCE

IDCamp 2023 **Oct 2023 - Feb 2024**

React Web Developer

- Designed and implemented front-end logic for Single Page Applications (SPAs) using React, leveraging React Hooks and Context API for efficient state management.
- Integrated RESTful APIs to fetch and manage dynamic data, creating a responsive and engaging user experience.
- Developed a seamless navigation architecture using React Router for smooth view transitions without page reloads.

SIB Dicoding Batch 2 **Feb 2022 – Aug 2022**

Front-End and Back-End Web Developer

- Developed and optimized new features across front-end and back-end components for web applications.
- Utilized Webpack to manage assets, streamline bundling, and optimize build performance for modern applications.
- Managed source code version control and team collaboration workflows efficiently using Git.
- Integrated web applications with backend services to dynamically fetch and display data.
